PROFILE

Product Designer & Front-End Developer based in Doha, dedicated to building digital experiences that put people first. I bridge the gap between user needs and clean code by sitting down with real users, mapping their workflows, and carrying those insights from wireframes to the final front-end that ships. By integrating AI as a collaborative partner to accelerate prototyping, I recently delivered a comprehensive internal CRM/ERP and a bilingual corporate website from the ground up. My end-to-end practice blends five years of cross-functional experience with a strict adherence to human-centered design principles (ISO 9241-210).

SKILLS

Product & UX: User flows, customer journey mapping, wireframing, prototyping, user research, usability testing, design systems, human-centred design (ISO 9241-210).

Design tools: Figma, Framer.

Front-end: React, Tailwind CSS, HTML, CSS, JavaScript, responsive design, internal tools, CRM/ERP.

AI in design: AI-assisted discovery, ideation and prototyping (Claude, Cursor); generative visuals (Higgsfield); no-code automation.

Marketing & digital: Brand strategy, digital campaigns, content and copy direction, client relationship management.

PROFESSIONAL EXPERIENCE

Product Designer & Front-End Developer

May 2025 – Present

RCH Business Solutions | Qatar

- Designed and built RCH's internal system from scratch by mapping workflows for operations, PRO, and collections teams.
- Streamlined dashboards to cut government processing time by 20% across 500+ client mandates, and independently designed and developed RCH Saudi corporate website using React and Tailwind.
- Partnered directly with leadership and government-facing staff to ground designs in real user workflows, leveraging AI tools (Claude, Cursor, Higgsfield) to drastically accelerate prototyping and development.

Product/Digital Designer

November 2024 – May 2025

Cat Planet (Animal nutrition & Health Center), Doha, Qatar

- UX/CX & Brand Strategy: Owned the end-to-end client experience and brand identity, driving user-centric improvements that grew the customer base by 70%.
- Held client retention at 90% through consistent follow-up and relationship management.
- Planned and ran both digital and field campaigns, from concept to execution.

Marketing & Digital · Business Development

March 2020 – July 2022

Vet Plus Distribution (Veterinary Medical Supplies), Algeria

- Ran marketing and digital support for a catalogue of more than 150 products.
- Grew repeat orders by 35% and product adoption by 25%.
- Kept customer satisfaction above 90% through close account management.

SELECTED PROJECTS

SCAN MERCH CRM/ERP : Internal product. Designed and built end to end: user research, design system, dashboards, client management, compliance and collections across two entities. React, Tailwind, Figma.

RCH Saudi : Corporate website. Concept, UX/UI and front-end for RCH's move into the Saudi market. Bilingual EN/AR, built and shipped solo. React, Tailwind, Figma, Framer.
